

ADVANTEC-2®

The controlled agglomerated stopper

A new stopper reflecting a technical innovation from AMORIM. You think a regular stopper is unsafe? Well, go for the ADVANTEC® to be on the safe side. Just like all our high-quality corks, this stopper has been TCA - tested.

In addition, its cork granules are sterilised in a vapour treatment according to the ROSA® - treatment to reduce TCA-content in cork granules to an absolute minimum.

Best used on wines with a short shelf life - great price, unique feel, unbeatable technology.

The ADVANTEC® cork stopper is available in the sizes:

38 x 23 mm 44 x 23 mm

Great offer for many reasons:

- ✓ ideal for wines with a limited shelf-life of maximum 2 years
- ✓ TCA - tested agglomerated cork product
- ✓ 100 % dust-free

OTR-Rate: (Oxygen Transfer Rate)

12 months 1,60 mg / cork
24 months 1,80 mg / cork

Technical Specifications:

Length: +/- 1.0 mm
Diameter: +/- 0.4 mm
Ovality: ≤ 0,3 mm
Specific weight: 250-330 kg/m³
Moisture: 4 % to 9 %
TCA - content: ≤ 2.0 ng/l
CO₂ retention: 328g / cork
