

ADVANTEC®

The clean agglomerated stopper

A new stopper reflecting a technical innovation from AMORIM. You think a regular stopper is unsafe? Well, go for the ADVANTEC® to be on the safe side. Just like all our high-quality corks, this stopper has been TCA - tested.

In addition, its cork granules are sterilised in a vapour treatment according to the ROSA® - treatment to reduce TCA-content in cork granules to an absolute minimum.

Best used on wines with a short shelf life - great price, unique feel, unbeatable technology.

The ADVANTEC® cork stopper is available in the sizes:

38 x 23 mm 44 x 23 mm

Great offer for many reasons:

- ✓ ideal for wines with a limited shelf-life of maximum 12 months
- ✓ TCA - tested agglomerated cork product
- ✓ 100 % dust-free

OTR-Rate: (Oxygen Transfer Rate)

Average rate in 12 months 1,60 mg/cork

Technical Specifications:

Length:	+/- 1.0 mm
Diameter:	+/- 0.4 mm
Ovality:	≤ 0,3 mm
Specific weight:	250-330 kg/m ³
Moisture:	4 % to 9 %
TCA - content:	≤ 2.0 ng/l
CO ₂ retention:	328g/cork
