

Bottlelight

Illumination Stick for Wine Bottles and Champagne Bottles

The product Bottlelight is intended for an illumination of empty standard wine and champagne bottles giving a comfortable all surrounding light from the inside of the bottle. The Bottlelight works with three standard batteries of type AA 1,5 V, which are easy replaceable through an opened lid. The illumination time is 80-120 hours per battery set, wherein the illumination is kept constant due to electronics. The Bottlelight can be switched on/off by slightly turning the lid.

The product is watertight from the bottom up to the lower edge of the lid and it is rainproof from the top in an upright position, such that it can remain outside in a garden. However, the device must not be put into beverages. The manufacturer does not take any health liability in such cases.

The device must be kept away from children under the age of 3, because of the batteries.

- fits in all standard wine and champagne bottles (bottles with bottle neck inner diameter between 17 & 21 mm)
- illuminates from the inside of the bottle by a light beam of high quality acrylic glass for uniform light distribution
- ideal for garden or inside parties, restaurants, bars, camping, for use in fire endangered areas
- illumination time: 80-120 hours per battery set (batteries: 3 x AA-Battery 1,5V)
- watertight from the bottom up to the lid rain proof from the top (in upright position)
- high efficient LED (100.000 hours) for warm or cold light
- integrated electronics for constant brightness control
- on/off switching by softly turning the lid
- high quality design and materials

Art.-No.	Description	EAN-Code
BOT-03-k	Bottlelight with cold-white LED	0700621847410
BOT-03-w	Bottlelight with warm-white LED	0610098499909
BOT-04	Bottlelight with warm-white LED two intensities 15 and 40 lm adjustable	4893263135055
BOT-05	Bottlelight vivi-LED color	0610098499930
BOT-09-4	VivILED- TABLE LAMP	893263135079

Carton Tube Single Pack (Standard)

The Carton Tube is stable, appropriate for shipping and holds the EAN code.
(Diameter 34mm; Length 300 mm; Weight 115g)

Instructions Leaflet:

The instructions leaflet comprises the following languages: DE, EN, ES, F, I, NL, RU.
(A5 folded 5x14.5 cm; Weight 3g / 60g with BottleLight)

Production:

The production was made and tested in Potsdam/Germany.

Technical Data: (valid for article Bot 03, 04 und 05)

Length total	260 - 270 mm (± 5mm)
Length of light beam	100 mm (± 5mm)
Length within a bottle	230 mm (± 5mm)
Diameter lower part /Lid	17 mm / 20 mm (± 0,2mm)
Material	Aluminium, acrylic glas, NBR
Luminous flux	10-15 lm
Light colour ww/cw	w: 3000K // k: 5000K
Supply voltage	3-6 V ; 3x AA cell battery à 1,5 V
Current consumption	20-100 mA
Weight wt/w batteries	57g ± 3g / 126g ± 3g
Operating temperature	-20 ...+65°C (battery dependant)
On/Off Switching	by softly turning the lid
Conformity	CE, RoHS,
Guaranty	2 years

RECOMANDED ENDUSER-PRICE:

BOT-03-k/03-w :	€ 17,00 excl. 20% VAT.
BOT-04:	€ 20,00 excl. 20% VAT.
BOT-05-LED color:	€ 30,00 excl. 20% VAT.
Bot 09-4:	€ 41,67 excl. 20% VAT.
