

QORK-10[®]

The 100% biological microgranule cork
free of releasable TCA with guarantee*

QORK[®] is a unique cork and the latest result of a brand-new manufacturing approach in the cork industry. Containing a minimum of 80% natural cork granules enveloped by a binding agent with 100% vegetable polyols sourced from wine grape seed oil.

Featuring Xpür[®], the innovative, 21st Century supercritical fluid technology, Qork[®] allows for a robust and even deeper cleansing of cork's cellular structure, delivering non-detectable TCA performance and eliminating other volatile substances that could trigger sensory deviations, while keeping the natural characteristics of cork intact.

QORK[®] is available in following sizes:

44 x 24 mm 49 x 24 mm

Great offer for many reasons:

- ✓ Corks with a non-detectable TCA guarantee*
- ✓ A storage of your wines up till 10 years
- ✓ 100% natural due to vegetable polyols, grape seed oil and beeswax

OTR- Rate: (Oxygen transfer rate)

12 months	1,11 mg/cork
24 months	1,13 mg/cork
36 months	1,15 mg/cork

Technical Specifications:

Length:	+/- 1,0 mm
Diameter:	+/- 0,4 mm
Specific weight:	240-320 kg/m ³
Moisture:	2% - 8%
TCA-content:	≤ 0,3 ng/l*
CO ₂ -retention:	393 g/Cork

*) releasable TCA content at or below the 0,3ng/l quantification limit; Analyses performed in accordance to ISO20752
